REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Blocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

These Are Closing Sales Each Day.

New York, July 23.—There was almost nothing in the day's stock market to interest say one, outside of the small circle of professional operators in stocks, who conducted all the business. Prices advanced in the first hour and declined after the appearance of an unexpectedly strong bank satement. Small net losses are the rule as a consequence. The feature was a perpendicular drop of 3 points in sugar, after an opening advance of 3c. As the addition deposits in the banks were largely cash, the surplus reserves benefitted to the substantial extent of \$3,451.075. The field of the loan expansion is not very clear. Certainly new loans did not find their way into stock market operations. The barcesse of over a million in the outstanding circulation of the banks is dua to the completion of the plates for printing notes in Washington, work on which has delayed the issuing of notes already applied for by the banks. A recovery in sterling exchange in Paris to the high point of the week and a cheap rise in Barlia discounts were the features of the week.

The dullness of the bond market is an evidence of the present caution of capital. The usual reinvestment of July dividends and interest although a largest amount of the providence of the present caution of capital. The usual reinvestment of July dividends and interest although a largest amount of the providence of the present caution of salt in the bond market. London and Berlin are reported heavy sellers of high grade American railroad bonds. But no such transactions have been recorded on the stock exchange. U. S. refunding 2s, when is the bid price. The total sales of stocks to-day were 83,900 shares.
